FINISHES

The Surface finish of a porcelain tile is the feeling that rounds off the idea, hence its special relevance. Depending on it, we can choose contrast or material continuity, adapting formats and finishes to the needs.

POLISHED

A fully reflective unparalleled gloss. With a reflection degree of nearly 90%.

HIGH GLOSS

A highly reflective and super intense color effect surface with ultimate reflection degree of nearly 95%, highest in polished porcelain tiles.

SMOOTH

A unique touch due to its beauty and fineness. Smooth matte surface that provides warmth in a simple and elegant way.

ROUGH

It gathers natural-material-inspired reliefs that transmit coarseness due to their roughness and crater irregularities. The star outdoors, preventing potential slipping.
