SURFACES ARE MOULDED WITH THE FORCE OF NATURE.

Diligence is an inherent feature of Surfaces. We strive to deliver a melange of strength, craftsmanship, and size that delivers function benefits as per the requirements of Spaces. Our manufacturing facilities employ the best technology from world leaders in SPC flooring manufacturing equipment. Our surfaces deliver the impact and the experience of pizzazz. The ridged core SPC floors exhibit is one of its primary qualities on account of the state-of-the-art Patented interlocking technology made with the precision of German engineering. Securing the spaces with the multiple layered robust product composition. Our R&D facilities already have a foot firmly planted in tomorrow, so that we are technically empowered.

NATURAL WOOD INSPIRATION

BRING THE BEAUTY OF NATURE INDOORS WITH WOOD-LIKE SURFACES.

Natural wood inspiration can bring warmth and texture to any space. Whether it's a rustic cabin or a modern home, incorporating natural wood elements can create a cozy and inviting atmosphere. The versatility of wood allows for endless design possibilities that can be tailored to any personal style.

VERSATILE AND DURABLE SURFACE SOLUTIONS.

surface solutions are designed to withstand fire and scratches while also being stain-resistant, easy to clean, and 100% waterproof. Additionally, they are environmentally friendly, as they can be recycled.

THERE ARE INFINITE SURFACES IN THE MULTIVERSE.

Rigid core flooring from Surfaces, blends the beauty of wood with the sturdiness of stone. We provide an array of SPC Flooring alternatives to make your space distinctive. Despite being adaptable and durable, our flooring follows a methodology that takes into account specific placement and space constraints. Inspired by the true nature of Earthy hues and textures, each of these is inventively manufactured and has a unique characteristic which makes it perfect for a variety of applications.

PRODUCT COMPOSITION

Stone Polymer composite (SPC) also known as rigid core flooring features a core that comprises mainly of limestone & PVC which results in its adaptability & strength.
