GruppoNueva™

A WIDE CHOICE OF COLORS,
A WOOD SURFACE,
A WINNING DESIGN.

Collection 2023/24

MAGICAL MEETINGS OF LIFE AND NATURE

Can you imagine having the very same flooring with identical features in every single space of your project? All in one finish brings softness and anti slip treatment together. There is no need to choose any more. You can have it all in just one product.

The soul of vintage effect wood relives in a porcelain stoneware design surface that not only faithfully reproduces its aesthetic appearance but also evokes its warmth and allure.

G O O D
W O O D

UNIQUE STYLE IN HARMONY WITH NATURE

Nothing is more soothing to our mind than the colours and textures taken from the world of nature. This is because what is best is reflected in nature. When creating the collection of wood-like tiles, we focused on the combination of beauty and uniqueness of wood with durability and strength of porcelain stoneware and clinker tiles.

HARDNESS

Geogres porcelain stoneware can withstand the level of wear and tear caused by average levels of pedestrian traffic.

FIRE RESISTANCE

It is rated as fireproof by the Technical Building Code (CTE), a mandatory building standard in Spain. Not only is it non-combustible; it also acts as a barrier in the event of a fire.

UNALTERABLE

Geogres's surface can withstand the exposure to sunlight, with its original colour and shade remaining unaltered.

NON-SLIP

Geogres AntiSlip flooring has non-slip properties, combining a natural feel with high-level resistance against slipping.

SAFE INTERIORS AND EXTERIORS

Performs well in areas with average pedestrian traffic, whether public or private residential, healthcare, commercial, government or public areas in general, compared with the limitations alternative materials offer.

EASY CLEANING

Zero surface porosity and high resistance to regular cleaning products.

DAMP PROOF

Moisture proof with Zero surface porosity. This makes the material ideal for wet areas such as bathrooms and kitchens: water absorption is very low at <math><0.1\%</math>, making it a safe option for preventing falls (Antislip) as well as for any area subject to average levels of pedestrian traffic.

SUITABLE FOR UNDERFLOOR HEATING

The planks are compatible for use with underfloor heating, which can be installed below the flooring. BUTECH provides specific installation instructions for this which should be adhered to.

LAYING SOLUTIONS

The material should be carefully checked before fixing, especially tonality, caliber and choice. Claims cannot be accepted once the material is installed. The company declines all responsibility for laying without joints; minimum joint laying has a gap of 2 mm.

PORCELAIN STONEWARE - STANDARD EN 14411 (ISO 13006) ANNEX G GROUP BIA, E 0.5%

TECHNICAL SPECIFICATIONS		STANDARDS	VALUES REQUIRED	OUR VALUES
			RECTIFIED	MATT
DIMENSIONS		Length and width	$\pm 0,3\%$, max 1 mm	In According
		Thickness	$\pm 5\%$, max 0,5 mm	In According
		Wedging	$\pm 0,3\%$, max 1,5 mm	In According
		Straightness of the edges	$\pm 0,3\%$, max 0,8 mm	In According
		Flatness	$\pm 0,4\%$, max 1,8 mm	In According
STRUCTURE		Water absorption - average value %	$\leq 0,5\%$	In According
		Breaking strength	$S \geq 1500$ N	$S \geq 2000$ N
		Modulus of rupture	$R \geq 35$ N/mm ²	In According
		Resistance to surface abrasion	According to classification indicator by manufacture	PEI IV
THERMAL SHOCK		Coefficient of thermal linear expansion	9×10^{-6} max	In According
		Thermal shock resistance	Resistant	Resistant
		Resistance to frost	Resistant	Resistant
SAFETY		DIN 51550	According to the space or the working area	R9
CHEMICAL RESISTANCE		Resistance to high concentrations of acids and alkalis	Class GHC Min.	Class GHA
		Resistance to low concentrations of acids and alkalis	Class GLC Min.	Class GLA
		Stain resistance	Min. class 3	5

INSTALLATION ADVICE

The longest side should be staggered no more than 300mm when laid in running bond.

V SHADES

The V-Shade classification indicates the level of shading of the product, ranked from V0 to V4.
