ABOUT OUR GROUP

ONE GROUP. FOUR SPECIALIST MANUFACTURING UNITS. ONE GLOBAL STANDARD.

GruppoNueva brings together Cosa Ceramics, Flooret Ceramics India, Gryphon Ceramics, and Nueva Mosaics under one unified surface manufacturing ecosystem.

A coordinated network for porcelain stoneware, ultra-compact sintered stone, and premium mosaics, built for consistent quality, design alignment, and export-ready reliability.

Three Decades of Innovation, Expansion & Surface Leadership.

ABOUT "GRUPPONUEVA"

GRUPPONUEVA ITALIAN DESIGN. INDIAN SCALE. GLOBAL RELIABILITY.

For 32 years, we have continuously reinvested in technology, manufacturing, and innovation evolving from the small beginnings of flora ceramics in 1994 to today's flooret ceramic india, powered by the latest european technology like sacmi continuous plus and advanced production systems.

This long-term commitment to modernization, quality, and engineering excellence is why we can compete with Italy and europe today in the global high-performance market.

- Ø ultra-compact sintered stone
- Ø premium porcelain stoneware tiles.

With deep design capability and a trusted network across 71+ countries, grupponueva delivers one consistent global standard of excellence — under one integrated brand.

Italian Design – Indian Scale – Global Reliability

FACTORY DETAILS

GRUPPONUEVA ONE ECOSYSTEM. ONE GLOBAL STANDARD.

We are india's largest unified surface manufacturing network.

36,000 sqm/day — premium porcelain stoneware tiles

4,500 sqm/day — premium porcelain mosaic tiles

10,000 slabs/day — ultra-compact sintered stone

Delivering unmatched consistency, precision,
And scale across all formats.

Our integrated operations set new benchmarks in
Design excellence, precision engineering, and high-volume accuracy.

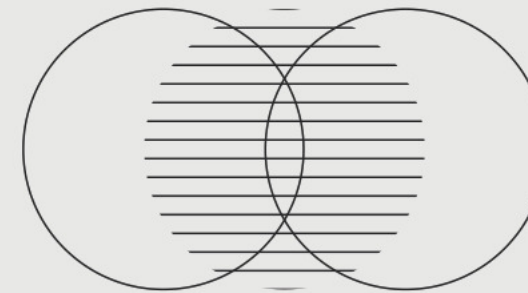

Grupponueva doesn't just produce surfaces —
We engineer tomorrow's architectural materials.

One ecosystem.

One global standard.

Built for tomorrow's architecture.

ITALY HAS DESIGN. INDIA HAS SCALE.
GRUPPONUEVA GIVES THE WORLD BOTH.

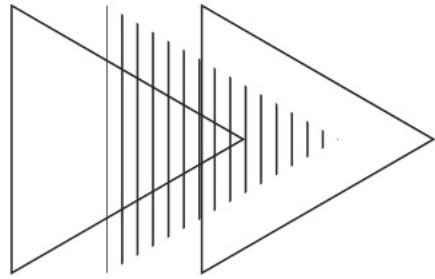

VISION FOR GLOBAL SURFACE EXCELLENCE

“GruppoNueva envisions an Indian Brand recognized worldwide alongside the world's finest Italian and European surface manufacturers — not by imitation, but through investment in advanced technologies, superior raw materials, and uncompromising craftsmanship.

Our vision is to elevate Indian manufacturing to global respect, redefining excellence, innovation, and architectural impact.”

MISSION & VISION

MISSION TO REDEFINE INDIAN SURFACE MANUFACTURING

"Our mission is to empower Indian surface manufacturing to achieve world-class recognition by engineering materials that match — and exceed — global standards.

We are committed to delivering design-driven, technology-powered, and performance-focused surfaces that build trust, inspire architects, and position India as a respected force in the global architectural surface industry."

INDUSTRY-LEADING MANUFACTURING EXCELLENCE

With 4 advanced production units, cutting-edge R&D labs, and 1,050+ skilled professionals,

GruppoNueva continues to lead the industry with premium sintered stone and porcelain stoneware tiles.

GruppoNueva® Porcelain Tiles

INNOVATION & TECHNOLOGY

GruppoNueva operates one of India's most advanced surface manufacturing ecosystems, powered by SACMI Continua+, high-capacity presses, and precision Italian engineering. Our unified network delivers:

36,000 Sqm/day — Premium Porcelain Stoneware Tiles
10,000 pcs/day — Ultra-Compact Sintered Stone

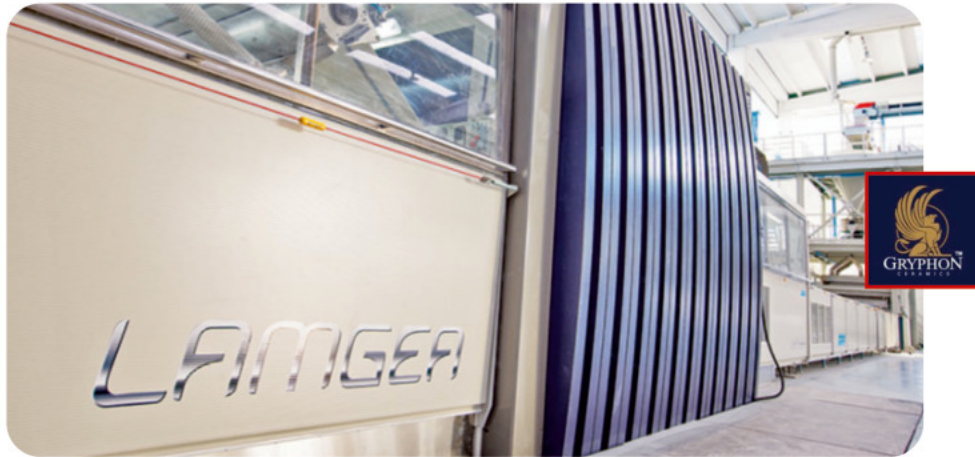

COSA CERAMICS PVT LTD

- 4 × SACMI PH5000 Presses
- 2 × SACMI Kilns
- High-precision porcelain tile manufacturing

Production Capacity: → **24,000 SQM/day** premium porcelain stoneware tiles

INNOVATION & TECHNOLOGY

GRYPHON CERAMICS PVT LTD

- SACMI PH8200 / • System Lamgea slab line
- 11,000 sqm/day high-precision porcelain tiles
- 4,000 slabs/day sintered stone & large-format tiles

FLOORET CERAMIC INDIA LLP

- SACMI Continua+ 2000PCR /
- Formats up to 160×320 cm
- 6,000 slabs/day ultra-compact slabs

PORCELAIN STONEWARE TILES

Cosa Ceramics Pvt. Ltd, a proud part of GruppoNueva, is a modern porcelain stoneware manufacturing unit spread across 1.1 million sq. ft.

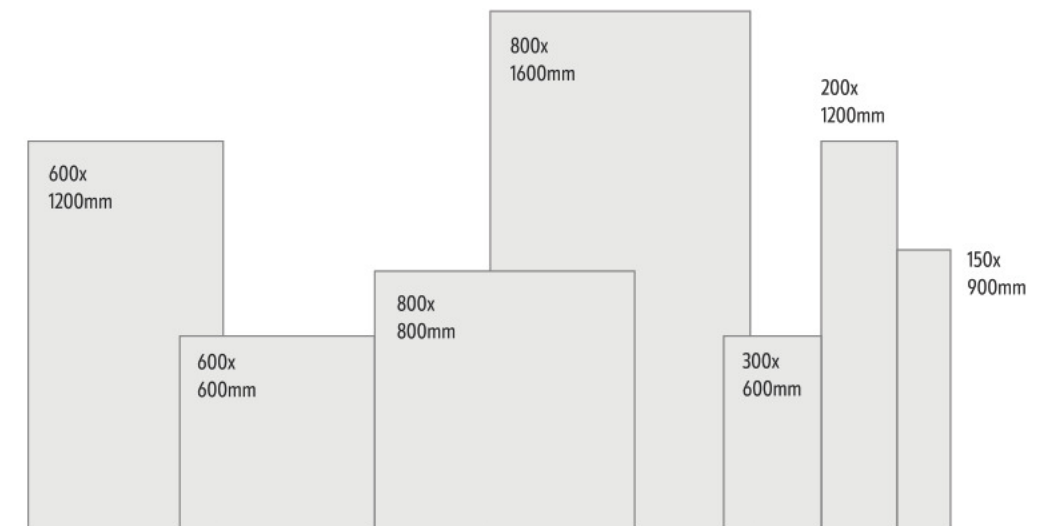

Equipped with 100% SACMI automation. With 2 dedicated lines, The plant follows European manufacturing standards with full SACMI automation, strong safety practices, and a responsible approach toward minimizing environmental impact.

Cosa supports GruppoNueva's porcelain stoneware range in 6.5 mm and 8.5 mm thicknesses, producing sizes such as 300x600 mm, 600x600 mm, 600x1200 mm, 800x800 mm, 150x900 mm, and 200x1200 mm.

Its products are engineered for performance, longevity, and architectural beauty, serving a modern, dynamic, and globally diverse market.

THICKNESS : 6.5MM, 8.5MM

OUR PRODUCT FORMAT

PORCELAIN STONEWARE TILES

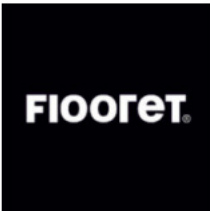

Gryphon Ceramic Pvt. Ltd, a proud part of GruppoNueva, is focused on premium sintered stone and porcelain stoneware solutions with precision automation, Italian machinery, and System Lamgea plus Sacmi 8500 press technology in the same roof.

The unit is designed to deliver European-grade quality, unmatched consistency, high-volume stability, and refined zero-defect surface finishing while maintaining strong safety and sustainability standards.

Gryphon supports key formats in 6.5 mm, 8.5 mm, 12 mm, and 15 mm thicknesses, including 1000x1000 mm, 1200x1200 mm, 800x1600 mm, 1200x1800 mm, and 1200x2400 mm 1200x2800 mm.

With its technology and production discipline, Gryphon helps engineer sintered stone and Porcelain tiles that earns India the same global respect as Italy and Europe.

THICKNESS : 6.5MM, 8.5MM, 12MM, 15MM

SINTERED STONE

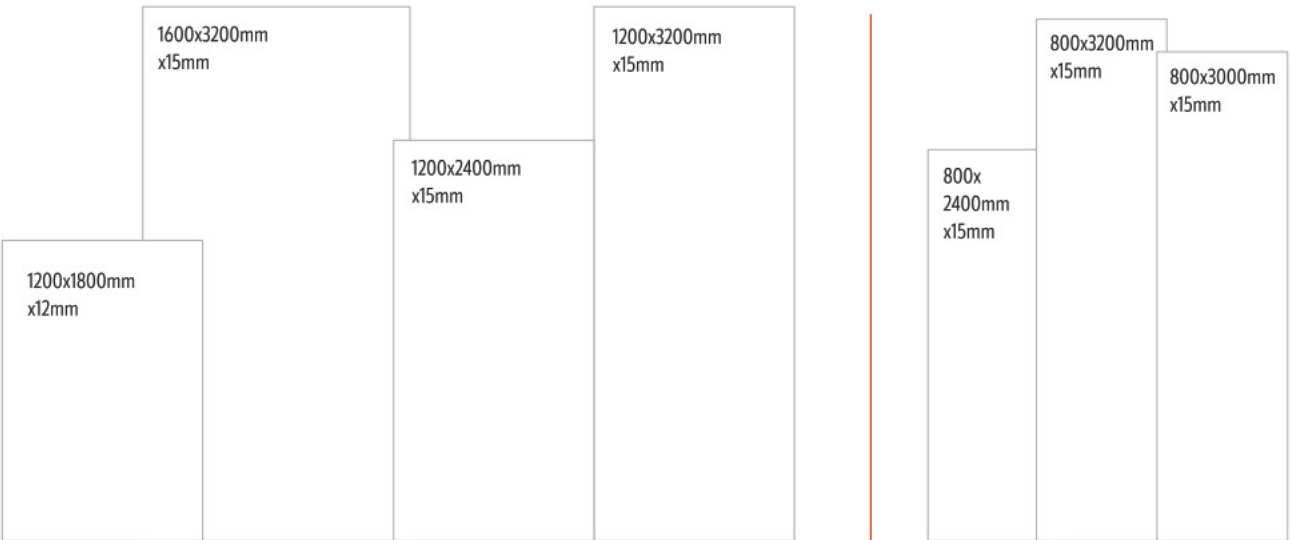

Flooret Ceramic india llp, strengthens GruppoNueva’s sintered stone production capability with high-speed output, European-grade quality, and advanced SACMI Continua technology.

The plant is built for precision, consistency, high-volume stability, safety, and sustainability, allowing GruppoNueva to produce large-format sintered stone directly in line with Italian and European standards at scale.

Flooret produces major large-format sizes in 12 mm, 15 mm, and 20 mm thicknesses, including 1200x2800 mm, 1600x3200 mm, 800x2400 mm, 800x3200 mm, 1200x2400 mm, and 1200x3200 mm.

This capability supports global architectural, commercial, and design markets with durable, elegant, and high-performance surfaces.

THICKNESS : 15MM

OUR PRODUCT FORMAT

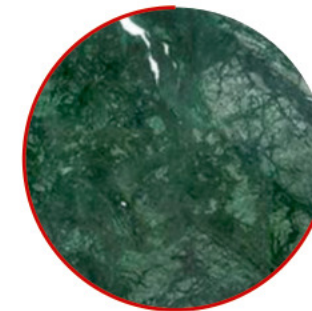

STONE & TILES

Few architectural products have experienced such rapid technological advancements as Sintered stones and Porcelain stoneware tiles, now among the most desired surfaces in modern construction and high-end design.

MATERIALS

GruppoNueva's Stone & Tiles are crafted with uncompromising precision, using world-class raw materials, frits, grits, and digital compounds sourced from leading European partners. Every surface begins with material integrity—the foundation of Italian engineering excellence.

DESIGN

Our global design ecosystem brings together Italian inspiration, Indian craftsmanship, and advanced digital technologies to produce surfaces that deliver timeless elegance, architectural depth, and visual sophistication.

INNOVATION

We push the boundaries of Stone & Tiles technology with high-performance formulations, advanced surface effects, and next-generation digital production, delivering solutions tailored for today's most demanding architectural projects.

PRODUCT DETAILS

EUROPEAN MATERIAL PARTNERS

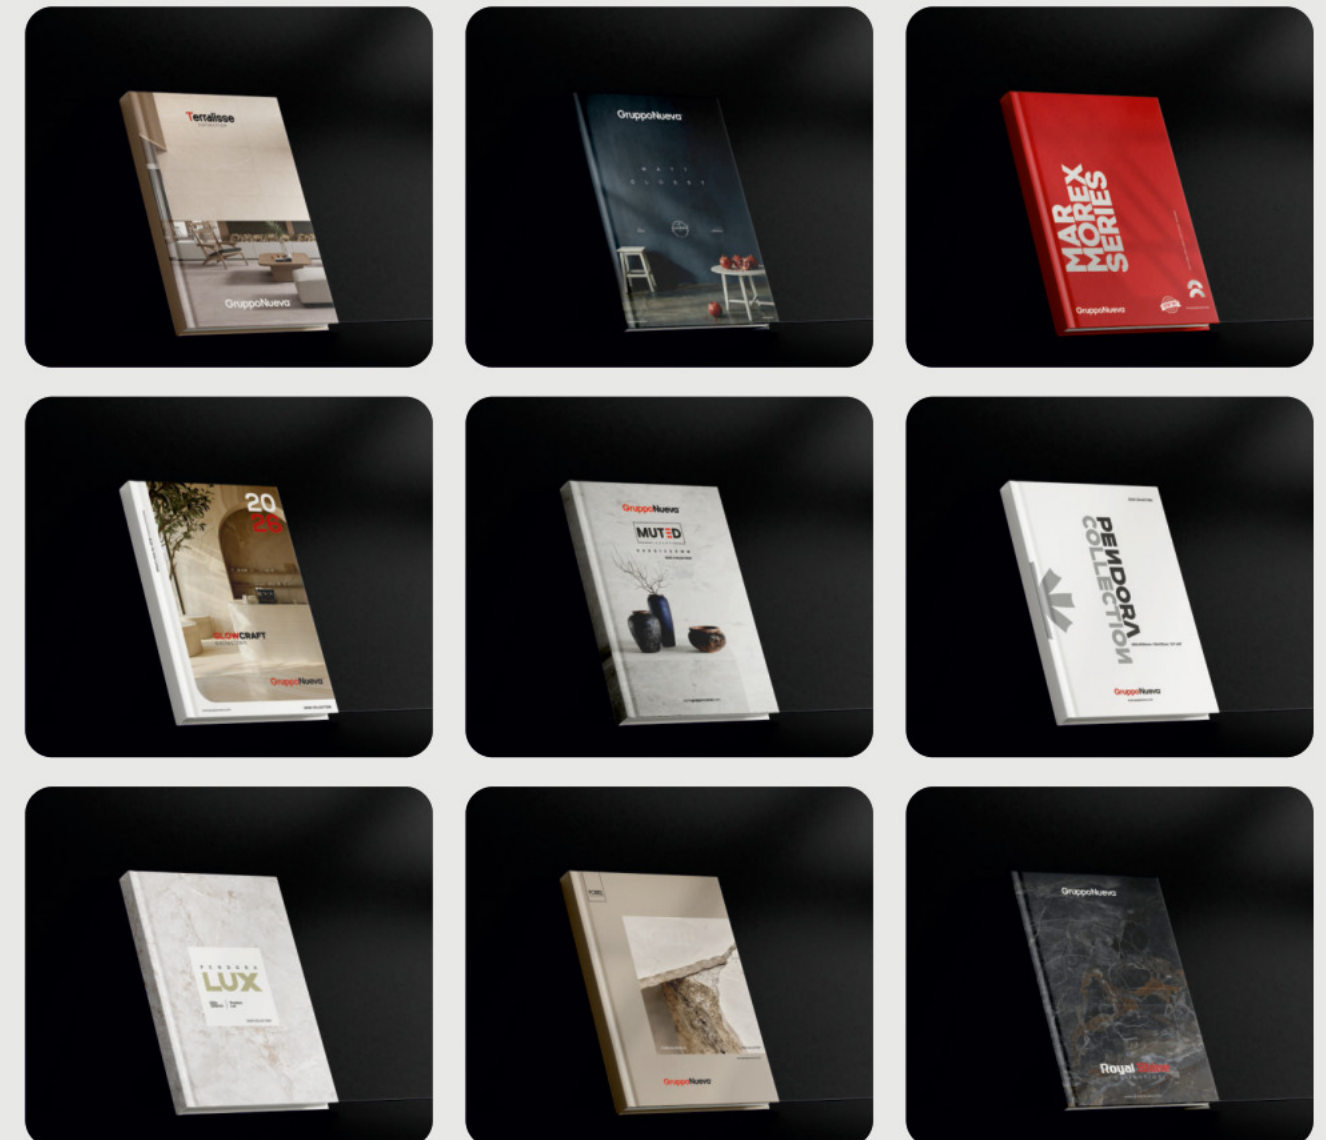

European Partners in Material Science For imported raw materials, frits, glazes, technical grits, inks, and digital materials, we collaborate with the world's most respected brands:

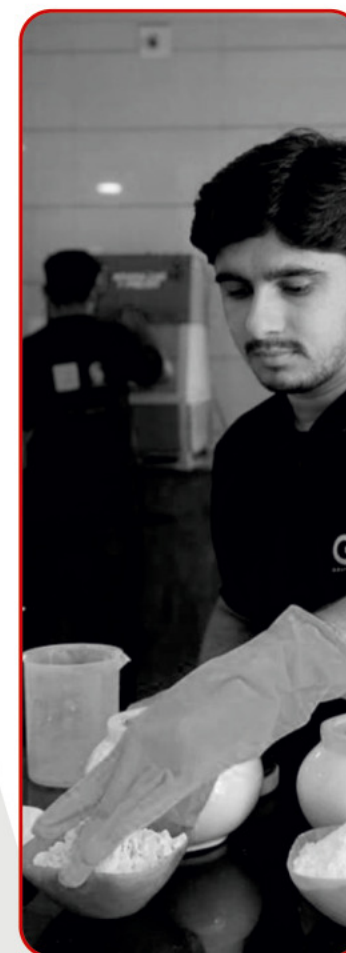

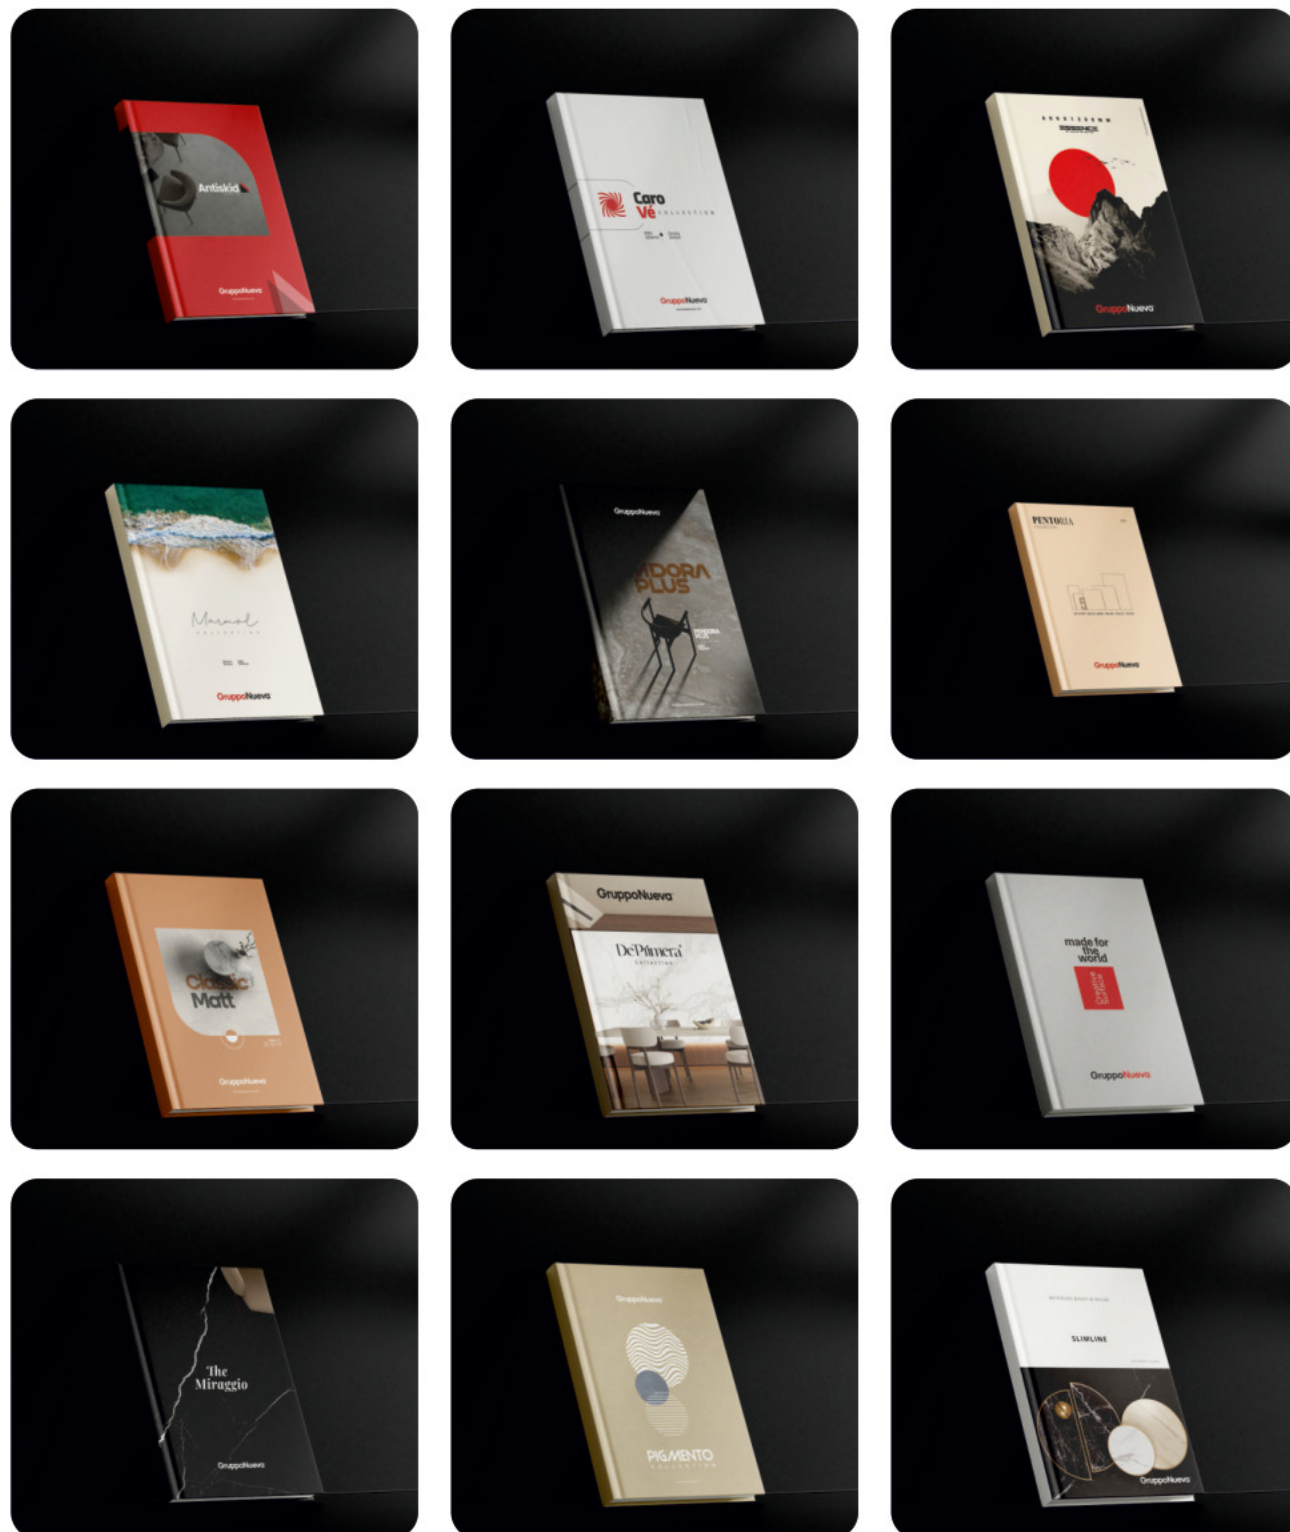

These partnerships ensure that GruppoNueva's surfaces meet global benchmarks for performance, consistency, and long-term reliability.

EXPLORE OUR PRODUCTS

Explore a curated range of sintered stone and porcelain surfaces crafted for modern architecture and refined interior spaces. Each collection combines advanced technology, premium materials, and timeless design aesthetics to deliver exceptional performance and elegance.

OUR COLLECTIONS

TO ACHIEVE CUSTOMER DELIGHT GRUPPONUEVA

At GruppoNueva, our world-class quality laboratory is more than a department — it is the heart of our commitment to excellence. It reflects our promise to deliver tiles and sintered stone surfaces that not only meet, but consistently exceed international quality benchmarks.

We combine:

- Advanced testing technology
- Highly trained quality professionals
- Globally aligned inspection protocols

...to ensure every product we manufacture is engineered with precision, durability, and absolute consistency.

Our multi-layered quality system includes in-process inspections, real-time monitoring, digital measurements, and pre-shipment verification for every batch.

QC videos, digital batch reports, and structured pre-shipment inspections available for all shipments.

Every shipment adheres to customer-specific and country-specific standards — because at GruppoNueva, quality isn't just checked... it's built into every layer of the product.

WHERE ITALIAN DESIGN MEETS INDIAN SCALE

ENGINEERED FOR GLOBAL EXCELLENCE.

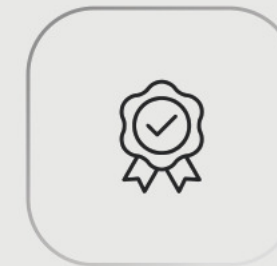

ITALIAN TECHNOLOGY. INDIAN EXPERTISE.

Every unit operates with SACMI Continua+, Lamgea, Italian frits, inks, and materials used by Europe's leading brands — delivering precision & reliability at scale.

INDIA'S MOST ADVANCED SURFACE ECOSYSTEM

A unified network producing **36,000 SQM/day** porcelain stoneware & 10,000 pcs/day sintered stone — ensuring unmatched consistency and production stability.

SMETA CERTIFIED SUPPLY CHAIN EXCELLENCE

Our ecosystem (COSA CERAMICS PVT LTD) is audited under SMETA, ensuring global-standard compliance in labor, safety, environment & business ethics.

GLOBAL QUALITY BENCHMARKS & ZERO-DEFECT PROMISE

Multi-tier inspections, in-process monitoring, and international testing protocols ensure every batch meets or exceeds global quality standards.

WHY CHOOSE GRUPPONUEVA?

EUROPEAN RAW MATERIALS & INK PARTNERS

We rely on world-class suppliers Torrecid, Vidres, Smalticera, Sicer ensuring superior color depth, glaze chemistry, and long-term durability.

TRUE DESIGN LEADERSHIP

Our design teams work with Italian experts and global trend studios, delivering high-value, export-focused designs crafted for modern architecture.

ETHICAL, TRANSPARENT & IMPORTER-FRIENDLY OPERATIONS

We operate with zero-commission, zero-ambiguity policies. Transparent costing, clear documentation, and importer-first systems make us a trusted long-term partner.

END-TO-END ECOSYSTEM: FROM PRODUCTION TO GLOBAL DELIVERY

With in-house QC, sampling, content development, loading supervision, logistics (IOI), and export documentation — we deliver a complete turnkey solution to importers.

DEDICATED EXPORT HOUSE FOR GRUPPONUEVA

GGCL – Gruppo Griffin Ceramica LLP, established in 2019 as the dedicated export house for the entire GruppoNueva ecosystem.

Serving as the group's centralized international platform for global sales, export coordination, documentation, logistics, in-house quality control, product portfolio management, design management, credit management and customer communication.

Connecting worldwide buyers & Partners with GruppoNueva's complete range of porcelain stoneware tiles, subways, mosaics, and sintered stone surfaces through a unified, transparent, and professionally managed export experience backed by our multiple advanced manufacturing units.

With GGCL, GruppoNueva delivers not only world-class surfaces but also a smoother, faster, and more dependable export experience built on transparency, consistency, and professional service.

one export house, one global standard, and one reliable gateway to GruppoNueva.

AUTHENTICITY WITH SUSTAINABLE INNOVATION

Cutting-edge technology allows Grupponueva to produce porcelain tiles and sintered stone that maintain authenticity while remaining sustainable.

Grupponueva offers 150x900mm & 200x1200mm wood-strip tiles, providing a great alternative for those seeking a wooden tile feel.

The Nueva Mosaic from Grupponueva reduces wastage through advanced Cut & Press techniques to produce MOSAICS & SUBWAY TILES, adding luxury to bathrooms and walls across various applications.

All our plants are equipped with the latest well-maintained machinery and adhere strictly to local industrial norms.
